## CONTENTS

### "Seagull Island", 1985

Trevor J. Ham, Toronto

The twisted rocks of this small island protect between 50 and 150 herring gull eggs each spring. Trevor J. Ham and his family spend their summers nearby on one of the Thirty Thousand Islands in Georgian Bay. The annual egg count is a family tradition.

Ham graduated from McGill University, Montreal, in 1963 and has practised pediatrics since 1970.
